

JUST VERTICAL USER MANUAL

Light Timer Manual

A Quick Note On Your Timer

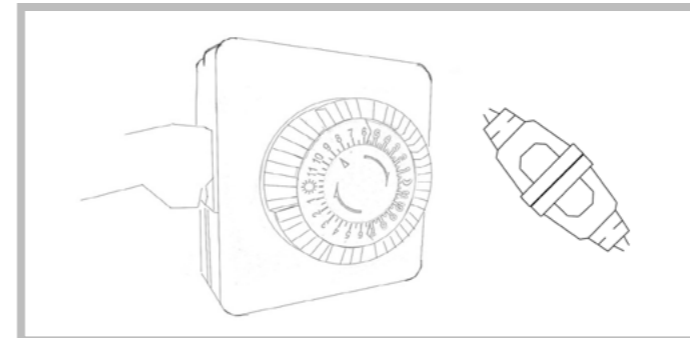

Welcome to the legacy user manual for setting up the the light timer on your EVE indoor garden! This manual is for the digital light timer found on EVE gardens purchased starting in December 2022 and ending (mostly) in November 2023.

Inside this manual, you'll find everything you need to know about setting up your light timer. We've made sure to keep the instructions clear, straightforward, and easy to follow. Our goal is to ensure that you can get back to what matters most - growing beautiful, healthy plants in your EVE indoor garden - without any unnecessary complications.

We're here to support you every step of the way. If you find yourself feeling a bit puzzled or if you have any questions, **don't hesitate to reach out to our friendly team at support@justvertical.com**. We're more than happy to help clarify any points or provide the additional information you might need.

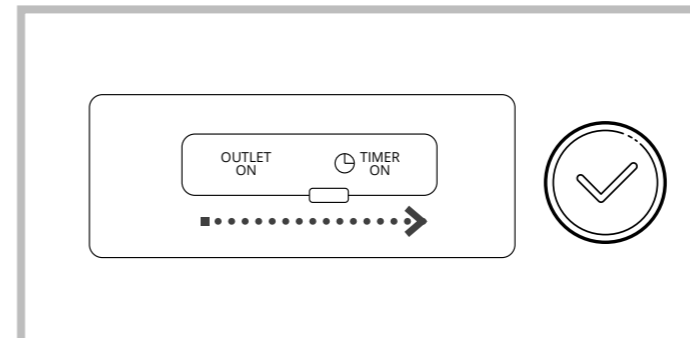

Thank you for choosing Just Vertical for your indoor gardening needs. Happy gardening!

Setting Your Mechanical Timer For Lights

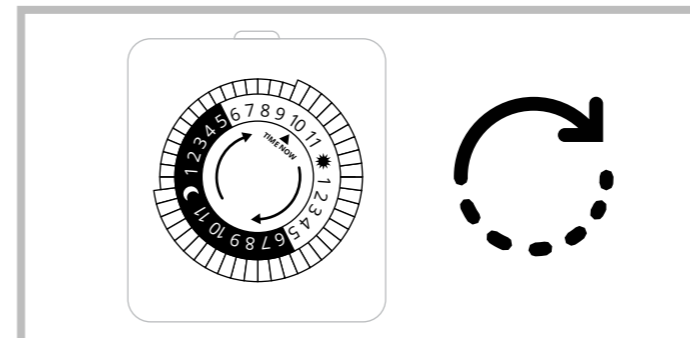

1 Power

Plug the power cord from your garden into the timer and plug the timer plugged into the power bar provided.

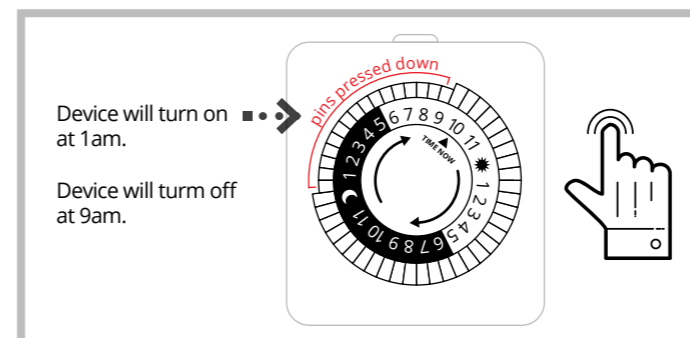

2 Set Timer Setting

Set the timer setting switch on the side of the timer to 'Timer ON'.

3 Set The Time

Rotate the main timer dial clockwise, aligning the 'Time Now' pointer with the current time.

4 Set Light Cycle

Push the timer pins down for when you'd like the light to be on. We recommend 16 hrs on (pins down), 8 hrs off (pins up).

Thank You!
We look forward to
growing with you.
